Submission Guidelines

1. Aims and scope

Radiation Detection Technology and Methods (RDTM) focuses on all aspects of radiation detection technology and methods, including electronics and system design, computer and control techniques, detection technology and methods, data processing and imaging. It presents an attractive mix of authoritative and comprehensive reviews, original articles on cutting-edge research and brief communications. The journal offers rapid review and publication of articles.

RDTM publishes articles that focus on, but are not limited to, the following areas:

- Detection technology and methods
- Computer technology applications
- Particle acceleration technology
- Electronics and system design
- Synchrotron-radiation based techniques and methods
- Astroparticle technology
- Imaging and radiology

2. Submission

Manuscript submitted to RDTM should be submitted through the web-based submission system at https://www.editorialmanager.com/rdtm/default.aspx.

Original material: Submission of a manuscript implies: that the work described has not been published before; that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities – tacitly or explicitly – at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.

Submission Format: The Editorial Manager system accepts original submissions in doc/docx/PDF/Latex format, but the revised version should be in docx/Latex.

Author list: The author list should be complete and consistent with the original manuscript. If any changes to the authorship are made in the revised version, an authorship change form should be signed by all authors.

3. Preparation of manuscript

The manuscript must conform to the following requirements:

3.1. Title Page: The title page should include: the name(s) of the author(s), a concise and informative title, the affiliation(s) and address(es) of the author(s), the e-mail address, and telephone number(s) of the corresponding author.

3.2. Abstract: Please provide a structured abstract of 150 to 250 words which should be divided into the following sections: Purpose (stating the main purposes and research question), Methods, Results, and Conclusion.

3.3. Keywords: Please provide 4 to 6 keywords which can be used for indexing purposes.

3.4. Text Formatting: Use a normal, plain font (e.g., 10-point Times Roman) for text. Use the automatic page numbering function to number the pages. Use the table function, not spreadsheets, to make tables. Use the equation editor or MathType for equations.

3.5. Heading: Please use the decimal system of headings with no more than three levels.

3.6. Footnotes: Footnotes to the text are numbered consecutively; those to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data). Always use footnotes instead of endnotes.

3.7. Scientific style: Please always use internationally accepted signs and symbols for units (SI units). Please use the standard mathematical notation for formulae, symbols etc.

3.8. Data: Authors are strongly encouraged to deposit the data that supports their research in a trusted repository that supports the FAIR principles. It is recommended to choose a repository that specializes in the data for their scientific

domain, as this will maximize the probability that the deposited data will be interoperable and reusable. Please note that the selected repository must offer a translation to English in order to comply. Recommended repositories include SCIENCEDB, HEPData, HEPForge, etc. For more information please refer to Journal's Data Policy.

3.9. Acknowledgements: Acknowledgments of people, grants, funds, etc. should be placed in a separate section on the title page. The names of funding organizations should be written in full.

3.10. Conflict of interest: A a declaration of conflicting interests should be included in the manuscript. The disclosure information must be specific and include any financial relationship that all authors of the article has with any sponsoring organization and the for-profit interests the organization represents, and with any for-profit product discussed or implied in the text of the article.

3.11. References: Reference citations in the text should be identified by numbers in square brackets. The entries in the list should be numbered consecutively. Always use the standard abbreviation of a journal's name according to the ISSN List of Title Word Abbreviations. It is not advisable to cite an excessive number of references all at once in the text, as this can reduce the readability and impact of the manuscript.

In the References section of the paper, types of reference should be presented as follows.

Journal articles:

Li, Y., Gu, Y., Xie, Y. et al. Radiat. Detect. Technol. Methods (2017) 1: 5. https://doi.org/10.1007/s41605-017-0007-1

S. Preuss, A. Demchuk Jr., M. Stuke, Appl. Phys. A 61, 33 (1995)

M.K. Slifka, J.L. Whitton, J. Mol. Med. (2000) https://doi.org/10.1007/s001090000086

Book:

H. Ibach, H. Lüth, Solid-State Physics, 2nd edn. (Springer, Dordrecht, 1996), pp. 45–56

Book chapter:

D.M. Abrams, in Conductive Polymers, ed. By R.S. Seymour, A. Smith (Springer, New York, 1973), p. 307

Online document:

J. Cartwright, Big stars have weather too. (IOP Publishing PhysicsWeb, 2007),

3.12. Tables: All tables are to be numbered using Arabic numerals, and cited in text in consecutive numerical order. For each table, please supply a table caption (title) explaining the components of the table.

3.13. Figures: Each figure must have a separate caption. Name your figure files with "Fig" and the figure number, e.g., Fig1.eps. For vector graphics, the preferred format is EPS; for halftones, please use TIFF format. MSOffice files are also acceptable. Supply all figures electronically.

4. After acceptance

Publishing Agreement: Springer Nature and Institute of High Energy Physics, Chinese Academy of Sciences holds exclusive rights to this article under a publishing agreement with the author(s) or other rightsholder(s); author self-archiving of the accepted manuscript version of this article is solely governed by the terms of such publishing agreement and applicable law.

Online first: The article will be published online after receipt of the corrected proofs. This is the official first publication citable with the DOI. After release of the printed version, the paper can also be cited by issue and page numbers.

5. Page fees

Page charges are €50 or 350 Chinese yuan (RMB) for each page of the finished typeset article. Invited articles are exempt from page charges.
